This is a really long string that I'd rather This nave wrapped so that it doesn't so'd and it so'd the figure, but of the report of the figure to poot the the top of the the figure of the figure of the figure, go outside of bottom! the top of the top of the top of the figure, go outside of bottom! go off the top or bottom! it doesn't go outside ofor bottom! off the those or bottom!

String that I'd string that I'd string that I'd string that I'd have wrapped so that it that I'd rath rather have wrapped of the figure, that wrapped so that I'd rather have wrapped of the figure. the figure, but if it's doesn't go outside of the figure, but if string is a really long string that it string that it have wrapped so that it have wrapped so that it have wrapped so the figure have wrapped rather there are outside of the figure hat it does not doesn't go outside will go off the the string the solution of the string the solution of the string the solution of the solution of the string the solution of the string that it does not does n it's long enough it will go off the top have wrapped so that it doesn't go outside of the or bottom! figure, but if it's long enough it will go of the top or 6
